

AVerVision VP-1

Portable Document Camera

folded view

Product Description

The AVerVision VP-1 is a high quality, yet economical document camera solution, perfect for first time document camera users, tight budgets, or for those who only need the basics. The VP-1 offers an ultra-portable, lightweight design with key features including auto focus and 8X digital zoom. Document cameras play an essential role in lessons, demonstrations

and image display. The AVerVision VP-1 will fill the fundamental need for basic document presentation while still maintaining crisp AVerVision image quality in any situation. The 2 mega pixel camera provides exceptional image quality, while the plug-n-play design gets users up and running in seconds.

highly economical

perfect for tight budget requirements without sacrificing quality and reliability

easy to use

the Plug-n-Play design allows for immediate set-up with one-touch features and clear controls

high quality images

the 2 megapixel camera produces sharp images to clearly display small details and text

essential features

includes the necessary basic document camera features including 8X zoom, auto focus and multiple output options

auto focus system

one-touch fast and accurate auto focus adjusts the image to provide the highest clarity in the shortest amount of time
