

EH-TW6600W

DATASHEET

A wireless Full HD 2D & 3D projector with 3LCD technology for exceptional images.

Who needs cables to enjoy Full HD big screen entertainment? This compact 3LCD home cinema projector boasts wireless Full HD technology¹, cutting out the need for HDMI cables to connect your WiHD devices. Alternatively, plug any set-top box, Blu-ray player or games console into Epson's HD transmitter for a 'real-time' WirelessHD connection, ensuring content is shown without delay or picture lag.

Wireless Full HD pictures

Say goodbye to messy cables. The WirelessHD technology cuts out the need for HDMI cables between the projector and your WiHD devices. Also, Epson's HD transmitter includes five HDMI inputs for maximum versatility.

Sharp and bright images

This Full HD projector uses 3LCD technology and 2,500 lumens brightness with equally high White and Colour Light Output to ensure vivid colours with no rainbow effect, while the 70,000:1 contrast ratio delivers deep blacks and highly detailed images in dark scenes.

Easy positioning

With wide vertical and horizontal lens shift, it's easy to position the EH-TW6600W off-centre to a screen, creating a precisely sized image, with no distortion or stretching. Combined with a 1.6x zoom lens and a compact design, it makes it incredibly simple to set up in any environment. Integrated 20W stereo speakers free you to connect to any external system, while all audio can easily be sent to a sound system using dedicated outputs.

Advanced image technologies

Able to convert 2D video to 3D for maximum versatility, the EH-TW6600W includes seven colour modes – including two especially for 3D – and a pair of RF 3D glasses². By sensing the ambient light, the auto colour optimiser can automatically identify the best setting and Epson's enhanced Super Resolution ensures both 2D and 3D video looks as sharp and crisp as possible.
