

This affordable, short-throw, 3,000-lumen projector can be mounted closer to the screen for fewer shadows when presenting.

The EB-430 has optional Wi-Fi and can be mounted 72cm from the screen for a high-quality, 178cm picture with fewer shadows, making it the perfect partner for schools' existing interactive whiteboards. It can also be used as an alternative to an interactive whiteboard with its optional interactive module.

High-quality picture

Powered by 3LCD technology, the EB-430 achieves accurate colour reproduction, important in education for natural-looking flags, maps and diagrams. A high White and Colour Light Output of up to 3,000 lumens assures a clear picture, even in daylight, while a contrast ratio of 3,000:1 delivers sharp detail.

Interactive lessons

Attach the optional Epson ELP-IU03 interactive module to captivate the class with interactive presentations. The module works with the projector to make any surface interactive - no screen required. Notes or additions can be created and saved with the included digital pen.

Convenient to control

The EB-430 is compatible with the Epson ELPCB01 Control and Connection Box, which puts Epson projector controls within easy reach at the front of the classroom. It also keeps cables tidy.

Engaging presentations

Presentations can be made more engaging by plugging in the Epson ELP-DC06 USB document camera to show 3D objects close-up, or by using the HDMI input to display high-definition content. The built-in 16W speaker and microphone input ensure students won't ever struggle to hear.
